900173

### FLEXIBLE PINS - SET

WORKSHOP - NEXT

Set of flexible pins - 450 pcs. Flexible pins DIN 1481 have a cylindrical body with a slot. Flexible pins are widely used to connect two or more structural elements to each other.

55630

### GLOVES LOBSTER BLACK SIZE L,XL,XXL

WORKSHOP - GLOVES

Professional, high quality and comfortable work gloves. Suitable for all-round work and handling. Material. Nylon upper made of windproof nylon. Neoprene padding to protect the knuckles.

900470

### ARECAL - ZINC SPRAY 400ML

WORKSHOP - SPRAYS

Repair spray for galvanized structures. Light colour shade, certified and approved, very good corrosion protection - Resistant to temperatures up to 300 C - Content 400 ml

52524

### GLOVES TEBOX SIZE 8,10,12

WORKSHOP - GLOVES

Luxury combination gloves for sport and leisure. The palm is padded and stitched. Gloves have velcro fastening. Suitable for sport and leisure. Material. Back made of high quality Tebox material - velcro fastening.

10269

### WOVEN WHITE PP BAG, PACK OF 10

WORKSHOP - BAGS

Package contains 10 bags. Polypropylene bag 560x1200mm.

55916

### PE BAG FOR DEBRIS 60X120CM / 200MY, PACK OF 10

WORKSHOP - BAGS

package contains 10 bags. PE bag for debris 60x120cm / 200my.

## ZINC SPRAY BL6 - 400ML SPRAY

WORKSHOP - SPRAYS

Characteristics of BL6 Zinc Spray:

Zinc Spray is a fast drying zinc dust based Epoxy-Ester anti-corrosion primer for high demands characterized by good resistance to water, salt water, abrasion and industrial atmosphere.

High resistance to water, salt water and abrasion with adhesion without primer, it is recoatable. Meets DIN50976- more than 92% zinc content after drying, DIN63167 -1000hr salt water resistance test, DIN53151 - GT 0-1 grid adhesion test, DIN53152 - 32mm bend test without cracking. Zinc Spray is a fast drying matt anticorrosive base with a high percentage of zinc dust (92% after drying) for high demands in anticorrosion protection. It is electrically conductive and can withstand high temperatures +490°C. With applications in industry where high emphasis is placed on anticorrosion protection such as welded areas, steel structures, damaged galvanized surfaces.

52700

## PE BAG 70X110, PACK OF 25

WORKSHOP - BAGS

weaker wall, pack contains 25pcs bags. Choice of colour blue, yellow, black. PE bag 70x110 - type blue, yellow, black. 1pcs=1role=25pcs of bags.

900396

## ALUMINIUM SPRAY BL6 - 400ML SPRAY

WORKSHOP - SPRAYS

Characteristics of BL6 aluminium spray:

Aluminum spray is a combination of lacquer binder and pure aluminum-metal pigments. The correct solvent ratio ensures perfect dispersion of the aluminium particles over the entire surface and guaranteed corrosion protection.

It is suitable for the protection of welded areas of pipes, steel structures, wheel rims, exhausts, car bodies, etc. It is applicable wherever high demands are placed on higher resistance to corrosion, temperatures and chemicals.

Applications of BL6 aluminium spray:

Repair and modification of aluminium shade substrates, corrosion protection in light aluminium, painting of iron structures, pipes, sheet metal, etc., repair of body damage after stones, painting of wheel rims, exhausts. It is immediately applicable without special preparation, without primer, acts as corrosion protection for most metal substrates. Economical in consumption. Temperature resistant up to 600°C, short term up to 800°C. Resistant to most acids and alkalis, highly abrasion resistant, fast drying. Good hiding power.

900368

52526

## PE BAGS 70X110, PACK OF 15

WORKSHOP - BAGS

Thicker wall, pack contains 15pcs bags. Choice of colour blue, yellow, black. PE bag 70x110 - type black, blue, yellow, 1pcs=1roll=15pcs of bags.

13139

## PROFORST MARKING SPRAY

WORKSHOP - SPRAYS

ProFORST ERGO forestry marking spray, 500ml. Mix of colours: red, orange, blue, green, pink, yellow...

53992

## VASELINE WITH TEFLON BL6 - 400ML SPRAY

WORKSHOP - SPRAYS

Characteristics of BL6 Vaseline with Teflon:

Very durable lubricant, meeting DIN 51825 standards. High adhesion, long-lasting effect, heat.  $-50^{\circ}\text{C}$  to  $+170^{\circ}\text{C}$ , protects against oxidation and corrosion. Suitable for gears. Contains Teflon. Designed for long-term protection against water and corrosion in demanding conditions for professional use. Widely used in the automotive, construction, agricultural and craft industries. It is intended for lubrication of cylindrical and plain bearings, hinges, pins, locks, construction machinery, etc. It is also recommended as an impregnating agent for rubber seals and plastics. It prevents cracking, embrittlement and aging of plastics.

## BOLT LOOSENER BL6 - 400ML SPRAY

WORKSHOP - SPRAYS

55542

Characteristics of BL6 bolt loosener:

is a proven product with MoS<sub>2</sub>, which is also suitable as a contact and lubricant. By selecting the raw materials, a fast effect is achieved, especially for corroded metal connections. The high capillary action and good volatility achieve penetration even into the narrowest crevices and interstices. This advantage prevents new rust formation.

Very fast, effective and long-lasting product. It has excellent climbing and lubricating properties. Permanently eliminates squeaking and rusting of bolted joints, parts. Prevents the formation of surface currents on electrical contacts. The high penetration of the active substances and MoS<sub>2</sub>, guarantees the penetration of these substances into the smallest tolerances and prevents the formation of new rust in the long term.

Applications of BL6 Bolt Loosener - Spray 400ml:

Bolt loosener has a wide range of applications, e.g. aiding dismantling of rusted metal connections, permanent lubrication of bolt connections, guides and sliding surfaces of various kinds. To prevent surface currents at switch contacts and electrical switches. As a lubricant for bowden trains, chains, hinges and many other moving parts. As an auxiliary agent during partial assembly in industry and crafts, to facilitate subsequent disassembly.

Product features - dissolves corroded connections such as pins, bolts, nuts - good volatility and capillary action - penetrates and dissolves rust - with anti-corrosion additives - protects against oxidation and corrosion - prevents baking of fittings - removes squeaks and squeaks - prevents surface currents and improves electrical contact ability

## SILICONE SPRAY BL6 - 400ML SPRAY

WORKSHOP - SPRAYS

54418

Characteristics of BL6 Silicone Spray:

Silicone oil is an oil-free and lubricant-free anti-adhesive agent for the protection, smoothing and treatment of plastics, rubber and metals and in the food sector, simply wherever it is undesirable to use oil, grease and other greasy lubricants.

A one-component lubricant ready for immediate use. It forms an anti-static greasy film with high heat resistance. Acts as a mould release agent in the processing of plastics, rubbers, metals in spraying, moulding, casting, extrusion. Lubricates spotlessly and invisibly. Clean, non-waxy lubricating and slippery film. Good temperature resistance. Protects against oxidation and corrosion. Good adhesion. Repels water, dust and acts antistatically. Preserves and prevents cracking of rubber, leather and plastics.

### TWO-WAY MINI BALANCE

WORKSHOP - NEXT

10307

### GLOVES NAZA SIZE 8,10

WORKSHOP - GLOVES

55248

### TECHNICIAN GLOVES SIZE 9,10,11

WORKSHOP - GLOVES

Gloves with Velcro on the wrist.  
Recommended use: suitable for all-round work and handling.

10342

### GLOVES TECHNIK ECO SIZES 8,9,10

WORKSHOP - GLOVES

Gloves made of grey goatskin with a back of black stretch knit.

900633

### WELDING GLOVES SYRO SIZE 11

WORKSHOP - GLOVES

Welding gloves made of cowhide, cuff 15cm. Glove length 35cm.

900041

### WINTER GLOVES ROXY WINTER SIZE 10

WORKSHOP - GLOVES

Winter gloves with non-slip surface. Latex coated palm and fingers.  
Use: Cold weather work in wet or oily environments.

### COMBINATION GLOVES MECHANIK SIZE 8,10

WORKSHOP - GLOVES

51965

### DINGO GLOVES SIZE 11

WORKSHOP - GLOVES

54790

Combination quality glove made of one piece of thick leather.

Recommended use: general applications, assembly, landscaping, maintenance, metalworking, mining, designed for dry environments

Industries: construction, agriculture

Material composition: palm - cowhide split leather, back - coarse cotton fabric

### COATED GLOVES GRETY SIZE 8,10

WORKSHOP - GLOVES

12915

High quality seamless gloves with a latex coating on the palm and fingers.

Recommended use: suitable for all-round work, handling.

### COATED GLOVES PUNYL WHITE SIZE 8,10

WORKSHOP - GLOVES

249

Nylon gloves with palms and fingers dipped in PU. Used to protect hands from dirt that can be caused when working in the garden, on construction sites, in the warehouse, etc.

Recommended use: suitable for all-purpose work, handling and gardening.

### BRITA COATED GLOVES SIZE 8,10

WORKSHOP - GLOVES

52094

Gloves with palms and fingers dipped in polyurethane.

### WRENCH FORGED

WORKSHOP - NEXT

It is used to secure against loosening of the topor, handle.

Size: 6mm, 8mm, 10mm

140

## BAG 70X100 CM

WORKSHOP - BAGS

Suitable for chips storage. Chip is not closed, but is aerated, beautiful becomes dry and its calorific value is very high.

---

## SPROCKET - TIGHT PEN

WORKSHOP - NEXT

Dimension: 3x3x36, 4x4x36, 4x4x80, 5x5x40, 5x5x50, 6x6x40, 6x6x120, 6x6x140, 6x6x200, 8x7x20, 8x7x70, 8x7x200, 8x8x80, 10x8x45, 10x8x60, 10x8x80, 10x10x65, 12x8x40, 12x8x100, 14x9x20, 14x9x50, 14x9x125, 16x10x50, 18x11x50, 18x11x65, 18x11x70/75, 18x11x100, 22x14x90, 22x14x160

---

## FLEXIBLE PINS

WORKSHOP - NEXT

Flexible pins have a cylindrical body with a slot.

Flexible pins are widely used to connect two or more structural elements together.

Dimension: 10x60, 10x80, 12x50, 12x80, 13x50, 13x60, 14x50, 14x60, 14x80, 16x70, 20x40, 3x20, 3,5x40, 3,5x50, 4x40, 4x50, 5x20, 5x30, 5x50, 5x60, 6x32, 6x36, 6x70, 6x100, 7x40, 7x50, 7x70, 8x50, 8x70, 8x100, 9x50, 10x30, 10x40
