## STAINLESS GRINDER AND PRESS OF FRUIT 220V

DR/LI/03

### Technical parameters

● Length	0,9 m
● Width	0,65 m
● Height	1,4 m
● Weight	140 kg
● Standard engines	1,5kW/220V
● Switch	With current protection
● Piston travel	21 cm
● Pressing pressure	3t.
● Cutting stainless steel disc	1 500 RMP
● Hopper	Stainless
● Pressing basket	Stainless
● Pressing holder volume	30 litres
● Drainage bowl	Stainless
● Chassis	for manual movement

This machine is a combined grinder and fruit press. Designally, this device is solved as a single machine. The service is not demanding and can be handled by one person.

The grinder and press is equipped with wheels and a pull rod for manual movement along the pavement or garden. The hopper for crushing, where the fruit is strewn, is painted with food color. The fruit is crushed by the stainless steel wheel at 1500 rpm. The high revolutions ensure that there are no rough pieces in resulting brush and this gives us a purée suitable for subsequent pressing. The pressing basket with a cloth, into which the crumbled fruit falls is made of stainless steal and its volume is 30 litres. Fruit is pressed by the hydraulic piston under pressure up to 3 tons. The entire device is powered by one electric motor of 1.5kW / 220V.

Almost all fruit and vegetables is suitable for crushing. For example: apples, pears, bananas, nectarines, peaches, oranges, beet, carrot, atc... For pressing mainly fruit like apples, pears, nectarines, oranges. Always at your discretion.

NEW: we have recently started to produce a press basket completely made of stainless steel. Previous press basket was made of beech wood. Stainless steel has a much longer service life compared to wood. At the same time, the basket has different passages for pressed juice, which resulted in better drainage and functionality.

## STAINLESS GRINDER AND PRESS OF FRUIT

DR/LI/02

### Technical parameters

● Length	0,9 m
● Width	0,65 m
● Height	1,4 m
● Weight	140 kg
● Standard engines	1,5kW/380V
● Hook	16A, 5 pins
● Switch	With current protection
● Piston travel	21 cm
● Pressing pressure	3t.
● Cutting stainless steel disc	1 500 RMP
● Hopper	Stainless
● Pressing basket	Stainless
● Pressing holder volume	30 litres
● Drainage bowl	Stainless
● Chassis	for manual movement

This machine is a combined grinder and fruit press. Designally, this device is solved as a single machine. The service is not demanding and can be handled by one person.

Stainless steel has a much longer service life compared to wood. At the same time, the basket has different passages for pressed juice, which resulted in better drainage and functionality.

## STAINLESS FRUIT CRUSHER

DR/OV/03

Manually portable fruit crusher.

The hopper for crushing, where the fruit is strewn, is STAINLESS The fruit is crushed by the stainless steel wheel at 1500 rpm. The high revolutions ensure that there are no rough pieces in resulting brash and this gives us a purée suitable for subsequent pressing and other purposes. The crusher is powered by a high-performance electric motor of 1.5KW / 380V.

Almost all fruit and vegetables is suitable for crushing. For example: apples, pears, bananas, nectarines, peaches, oranges, beet, carrot, etc... For pressing mainly fruit like apples, pears, nectarines, oranges. Always at your discretion.

### Technical parameters

● Length	0,5 m
● Width	0,5 m
● Height	0,6 m
● Weight	30 kg
● Engine	1,5kW/380V
● Switch	With current protection
● Hook	16A, 5 pins
● Cutting stainless steel disc	1 500 RMP
● Hopper	Stainless steel
